## November 2011

The students in the Academy will be hosting a chemistry show for their school. Lena students will present this on Monday, November 21st from 1:10-2:00 and West Park students will present this on Tuesday, November 22nd from 12:30-1:15. The show will contain experiments that they performed in the Academy plus a brief explanation of what's taking

place. Invite your friends and neighbors and join us as we celebrate chemistry!

The school competitions are approaching fast. During the week of November 14-18 all students will participate in the classroom spelling bees to determine who qualifies for the primary and intermediate spelling bees. Math Olympiads will also take place for students in the 5<sup>th</sup> and 6<sup>th</sup> grades during that week.

The fourth and fifth grade students have also been busy with some reading extensions. Some students

have chosen to display their knowledge about a certain topic by writing a book. These will be available in the school library for people to read.

Be looking for a monthly progress report called *Connections* that I will be sending home with your child to communicate how they are doing on their homework assignments.

I have posted three more videos on our website for you to enjoy.
